

# Subject Learning Goals of Sarah Lees- ID: 25984749

## Graduate Certificate in Education (*Learning and Leadership*)

750 - 1000 words

### **1. Subject Learning Goals: Improve Leadership Skills, in the Education Sector.**

In my role, as a Quality & Compliance Manager in Vocational Education and Training (VET) I aim to explore leadership strategies in depth to understand their impact on curriculum design and student success within learning environments. My objective is to assess how leadership influences the dynamics between educators and students as the effectiveness of teaching by incorporating approaches, like pedagogy and andragogy into my work. I believe these useful perspectives will guide me in enhancing my leadership methods to match industry norms and aid, in achieving the organisations objectives. I see this initiative to enhance my leadership abilities to inspire both students and staff, towards excellence while fostering a culture of growth.

### **2. Subject Learning Goals: Connecting theory with real world application.**

After examining my research, on leadership I intend to compare and contrast my findings with practices in the field of education and leadership to better understand how my leadership style aligns with standards and how it can adapt to meet the evolving needs of the vocational education and training (VET) sector. This reflection is crucial, for identifying areas where traditional approaches may need improvements or revisions by implementing strategies to increase student engagement and academic success. It will also provide me with a glimpse, into the atmosphere and how leadership impacts learning.

### **3. Subject Learning Goals: Enhancing Professional Development**

By delving into and implementing theories, like practice architectures in my practice of leadership in actual educational settings will enable me to thoroughly evaluate and enhance my leadership methods. Looking back on my leadership encounters will offer me the opportunity to contrast my strategies with developments, in education and leadership. This examination will offer perspectives on how my approach to leadership harmonises with practices and where adjustments may be necessary to meet the evolving needs of the vocational education and training sector. Reflection is crucial, for recognising chances to boost methods with approaches to enhance student participation and academic achievements betterment as well as broaden my comprehension of how leadership impacts education in various scenarios. Aiding me in adjusting and leading with greater effectiveness, in diverse environments.

### **4. Subject Learning Goals: Foster Collaborative Learning Environments**

In education leadership involves establishing welcoming and diverse learning settings that embrace creativity and individual differences while promoting involvement, from everyone engaged in the process. During this course I will strive to enhance my capacity to communicate proficiently through channels like written materials, presentations, and online platforms to express ideas clearly to diverse audiences. By refining my communication skills in these formats my goal is to initiate discussions and collaboration, among departments and engage effectively with stakeholders. By honing these abilities and talents I strive to improve my capability, in leading teams, aligning objectives, and promoting

teamwork among my colleagues with a shared quest for success. This development will result in greater accomplishments, supporting the career growth of our team.

#### **5. Subject Learning Goals: Contribute to Educational Excellence**

As someone who holds a role, in the Vocational Education and Training (VET) field my main aim is to implement leadership approaches that enhance the quality of offerings and guarantee they adhere to industry benchmarks. With my background, in ensuring quality and compliance measures are met I recognise the significance of upholding standards to satisfy regulatory requirements whilst also providing students with an outstanding learning journey. As the Quality & Compliance Manager, in my position I have put into effect regulations that guarantee standards of academics and operations for improvement throughout different departments. In my pursuit of the Graduate Certificate, in Education (Learning and Leadership), my goal is to enhance these approaches by gaining expertise in leadership techniques and models that can be used effectively at TAFE institutions. This will enable me to help create initiatives that comply with industry standards while also being recognised for their excellence in terms of quality and positive effects they have on student achievements.
